Samsung DVD drive SE-S084 driver & Software installation. (latest model). Jan 1, 2019 I have an old Samsung DVD writer SE-S084F that keeps working even though I have no idea how (it's an old computer and all the software that comes with it is very confusing) but is the Samsung SE-S084F only available in the US? The manual says it is worldwide, but on the side there is just an icon with "Worldwide" on it (no country info). Also my DVD writer is extremely slow to write DVD discs, less than 5 minutes for 40GB - I don't know if this is normal and if it's there, if there's any way to fix it. Thanks in advance.
